

MARCH
23TH & 24TH

FIRST INTERNATIONAL
PERIOPERATIVE MEDICINE SYMPOSIUM

CRITICAL MEDICINE AND INTENSIVE CARE,
ANESTHESIOLOGY, NURSING AND SURGICAL SPECIALTIES

PLACE

 **HOTEL LAS AMÉRICAS**
CARTAGENA DE INDIAS, COLOMBIA
<http://www.hotellasamericas.com.co>

MORE INFO

 **E-mail:** info@gricio.com

Sponsored collaborative by:

**Massachusetts Society
of Anesthesiologists**

Friday 23th

8:00-8:45 Opening remarks

Preoperative period

8:45-9:00 Perioperative medicine, what is the concept?

9:00-9:30 Perioperative cardiovascular evaluation.

9:30-10:00 Use of biomarkers to detect perioperative risk. Troponins, BNP

10:00-10:15 Coffee break.

10:15-10:45 Utility of exercise testing to predict perioperative complications

Special populations

10:45-11:15 Patient selection for ambulatory surgery

11:15-11:45 Demystifying Preoperative Pediatric Evaluation

11:45-12:15 Infrastructure design: A critical element in the care of the obese

12:15-13:30 Lunch

Safety

13:30-14:00 Safety in non-OR locations

14:00-14:30 Update on Anesthesia and Neurotoxicity

14:30-15:00 Operation room crisis checklist.

15:00-15:15 Coffee break.

Intraoperative considerations in special populations

15:15-15:45 Anesthesia for major otolaryngology procedures

15:45-16:15 Anesthetic concerns for nonobstetric surgery during pregnancy

16:15-16:45 Common Perioperative Complications in Children

Ambulatory

16:45-17:15 Ambulatory anesthesia for functional endoscopic sinus surgery

17:15-17:45 Newer Drugs in Anesthesia practice

17:45-18:15 Peribulbar and retrobulbar eye blocks

Saturday 24th

Monitoring and Mechanical ventilation

8:00-8:30 Update in mechanical ventilation.

8:30-9:00 Effect of intraoperative lung protective ventilation in surgical patient.

9:00-9:30 Non-invasive or minimally invasive cardiac output technologies in critically ill patients

9:30-10:00 Invasive hemodynamic monitoring.

10:00-10:30 Coffee break.

Postoperative and ICU management

10:30-11:00 Postoperative delirium. State of art.

11:00-11:30 Sedation and analgesia in the ICU.

11:30-12:00 Enhanced recovery after surgery (ERAS) programs. We are all tuned?

12:00-12:30 Q&A

12:30-12:45 Closing remarks.

SPEAKERS

Richard Urman M.D., M.B.A.

Dusica Bajic MD PhD

Wilma Ortiz MD

Gustavo Lozada MD

David L. Hepner, MD, MPH

Massachusetts Society
of Anesthesiologists
